**THE NEW HORIZONS IN THE GIFTED EDUCATION
THE ENVIRONMENTAL CONSIDERATIONS IN
THE IDENTIFICATION AND EDUCATION
(STRATEGIC REVIEW)
Nasseroddin Kazemi Haghighi**

Reviews the new findings in the gifted educational psychology. The results are proposed in four dimensions:

- ۱) The environmental factors modify the gifted's self-concept and locus of control.*
- ۲) The identification among minority gifted students requires to take advantage of the expedient methods.*
- ۳) The fundamental criterions for evaluation of the special program are formed by the teacher's characteristics consideration and examination of the environmental expectations.*
- ۴) The gifted's needs and the environmental desires determine the gifted's social education proceeding.*

Discusses the environmental differences of indicators of the giftedness and the gifted's sociability. Proposes suggestions and recommendations for the organization and administration, family, teachers, consultants, and society. (persian) pp. ۵-۲۲.
